CAROLINA WOMEN IN TECH

THE CWIT SCOOP

Hey there CWIT member,

Happy New Year!

We can't wait to fill you in on what we have in store for you. But first ...

Share your favorite tech tip of 2020!

Get your tech tips ready and share with us a new/favorite tech hack, tip, or software of 2020. As the pandemic moved us all into digital communication so quickly, there was new tech that we all learned to use!

As we enter 2021, we would like to showcase you and your favorite tech tips of the year. Click below to submit your tip, hack, or software with your headshot and we will highlight in our newsletters throughout the year.

If you are interested in leading a "Tech Nook Lunch n Learn" workshop, please share your area of expertise and what you would want to teach/share. Click below to share!

Submit Your Tech Tip Now!

President Memo

I hope this newsletter finds you in good health and happiness at the beginning of this new year ahead. 2020 was certainly a wild ride and 2021 seems to be just as unpredictable.

The Carolina Women in Tech (CWIT) Board has been working behind the scenes over the few years to create a plan that ensures we are helping you reach your personal and professional goals, inspire and educate you with opportunities.

Our primary objective in 2021 is to engage our members and sponsors in a way that supports the growth and diversification of the tech industry in the south east. Due to the pandemic we are evaluating the best way to support you, our greatest strength- our support network.

We are thankful to our members, sponsors, podcast listeners, and community leaders. Without you it wouldn't be possible to support local females who are exploring technology. From scholarships, to events, job opportunities, and our podcast we are serving our members throughout each year.

If you want to plug in check out our annual events and slack channel for our basic and premium members and sponsors to keep our dialog, opportunities, and inspiration going during and after pandemic times.

Share this newsletter with a woman who is passionate about technology and looking for a a career-focused support system.

With Gratitude,
Caitlin Sellers Castevens
Co-Founder and President of Carolina Women in Tech
Inbound Marketing Specialist, Podcaster, Community Builder, and Dog Mom

#TechYourSeat

Tag us on social and use the hashtag #techyourseat when you're feeling like inspiring women in tech. We would love to share it. "Tech Your Seat" are Charlotte based women in tech groups whose goal is to cultivate a centralized movement of increased diversity in the Charlotte community.

We typically have annual in person events with community partners but have postponed the event until further notice. In the mean time we are showing the love through social media and hashtags and would love to share any relevant events on our community calendar.
